Leading the Way in Disaster Medicine

The American Journal of Disaster Medicine is edited, written and peer-reviewed by the most impressive and knowledgeable names in the field, including the leading innovator in disaster medicine, Susan Briggs, M.D., our editor-in-chief. So you know you’re getting the most accurate, up-to-date and relevant information in every issue. Indexed in PubMed and Medline, no other publication offers this level of expertise in this unique specialty.

Specializing in Your Specialty

Published bi-monthly, every issue of the American Journal of Disaster Medicine provides in-depth coverage on injuries and illnesses most physicians have never seen—like blast wounds and post-explosion injuries, biological terrorisms, contamination and mass physical and psychological trauma.
