

## CONTENTS

<ul style="list-style-type: none"> <li>■ Planning, Modeling, and Evaluating Transportation Systems for Emergency Evacuations .....85</li> </ul>	<b>85</b>
<p><i>Special Issue Guest Editors: Brian Wolshon, PhD, PE; John Renne, PhD, AICP; LTC Brant Mitchell</i></p>	
<p><b>FEATURE ARTICLES</b></p>	
<ul style="list-style-type: none"> <li>■ Considering culture in evacuation planning and consequence management .....87</li> </ul>	<b>87</b>
<p><i>Wayne P. Bergeron, MS, DSc (Candidate)</i></p>	
<ul style="list-style-type: none"> <li>■ Evacuation planning for plausible worst case inundation scenarios in Honolulu, Hawaii.....93</li> </ul>	<b>93</b>
<p><i>Karl Kim, PhD; Pradip Pant, PhD; Eric Yamashita, MURP</i></p>	
<ul style="list-style-type: none"> <li>■ Conceptualizing intragroup and intergroup dynamics within a controlled crowd evacuation .....109</li> </ul>	<b>109</b>
<p><i>Terra Elzie, ME; Erika Frydenlund, MS; Andrew J. Collins, PhD; R. Michael Robinson, PhD</i></p>	
<ul style="list-style-type: none"> <li>■ Selection and allocation of manual traffic control points and personnel during emergencies .....121</li> </ul>	<b>121</b>
<p><i>Scott A. Parr, PhD, EIT; Brian Wolshon, PhD, PE, PTOE; Vinayak Dixit, PhD, PE</i></p>	
<ul style="list-style-type: none"> <li>■ The impact of a major earthquake on the evacuation of the emergency planning zone of a nuclear power plant .....135</li> </ul>	<b>135</b>
<p><i>Rebecca Cohen, EIT; Kevin Weinisch, PE</i></p>	
<ul style="list-style-type: none"> <li>■ The impact of shadow evacuation on evacuation time estimates for nuclear power plants.....145</li> </ul>	<b>145</b>
<p><i>Kevin Weinisch, PE; Paul Brueckner, BA</i></p>	
<ul style="list-style-type: none"> <li>■ Experimental modeling of the effect of hurricane wind forces on driving behavior and vehicle performance .....159</li> </ul>	<b>159</b>
<p><i>Jose M. Rodriguez, MS; Julius Codjoe, MS; Osama Osman, MS; Sherif Ishak, PhD; Brian Wolshon, PhD</i></p>	
<ul style="list-style-type: none"> <li>■ Options for improving evacuation: Investigating an unconventional strategy and expanding route options using TRansportation ANalysis and SIMulation System.....173</li> </ul>	<b>173</b>
<p><i>Carol Abel Lewis, PhD; Sandra Onyijekwe, MS; Garlin Wynn, MS; Brandon Mosley, MS</i></p>
